LAYOUTS

916 Poker Depot offers a wide variety of custom gaming layouts to meet each client's specific needs and requirements. All our gaming layouts are manufactured in the USA using a sophisticated dye sublimation process that infuses your artwork directly onto the fabric so graphics will never peel away.

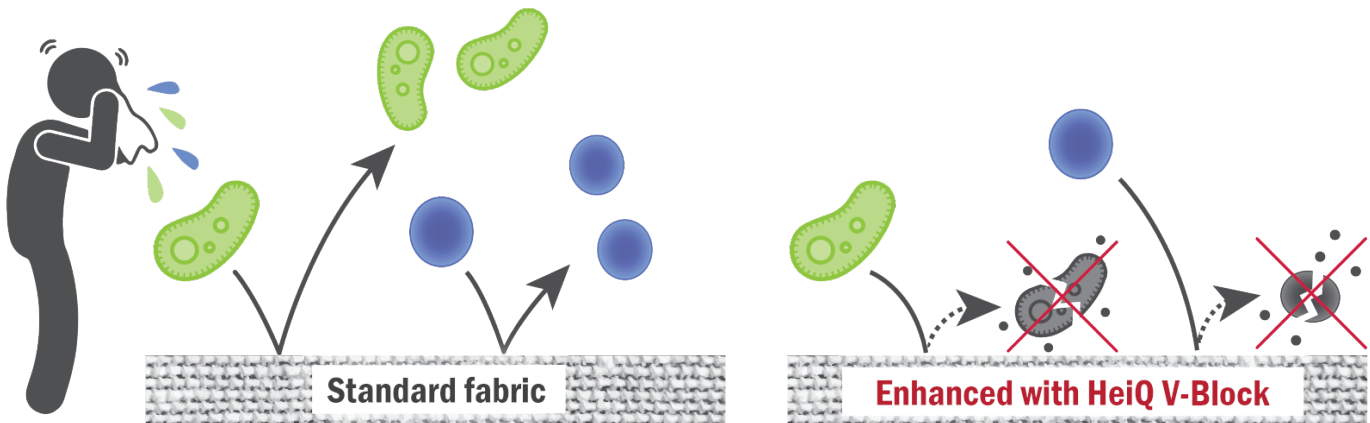

HYGIENIC FABRICS FOR CUSTOM GAMING LAYOUTS

916 Poker Depot, Inc. is excited to offer hygienic fabrics!

Choose between **Sanitized Antimicrobial** fabric or **Disenfectex** fabric, manufactured in the USA.

Sanitized Antimicrobial fabric, which in addition to providing antimicrobial benefits, is treated with a zinc pyrithione-base that works by destabilizing the cell walls of odor-causing bacteria and deactivating them.

Disenfectex fabric is treated with HeiQ V-Block, which is an antimicrobial textile treatment that uses a unique combination of silver and vesicle technologies to create a hygienic line of fabrics for sublimation printing.

Attributes Include:

- Built-in antimicrobial properties
- Flame retardant for indoor safety
- Acts as an acoustic insulator to absorb background noise
- Aids in social distancing
- Hypoallergenic, provides self-sanitizing and germ resistant surface

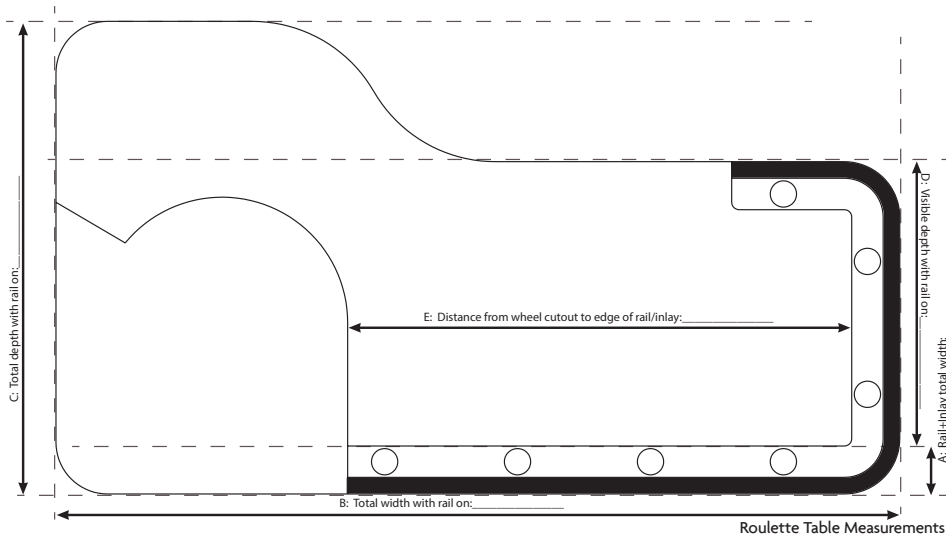

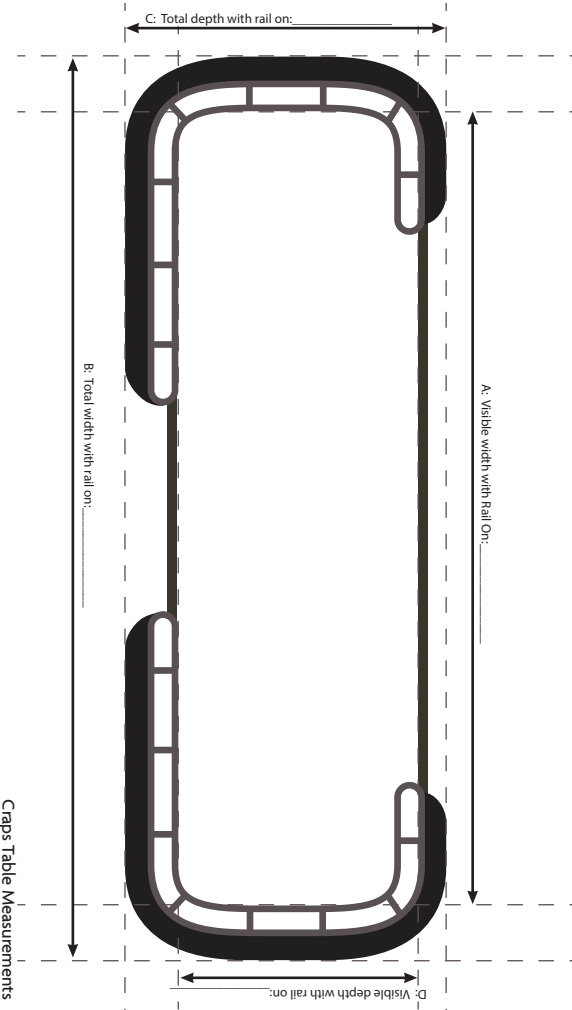

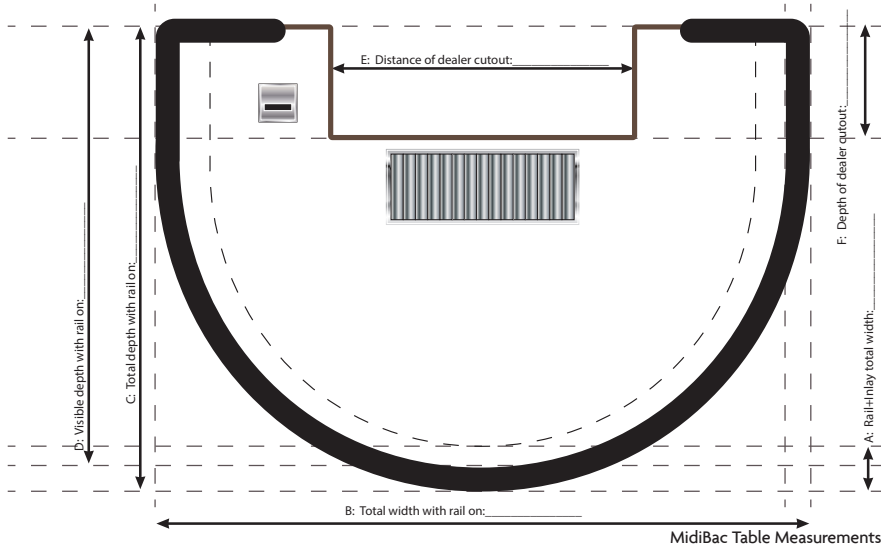

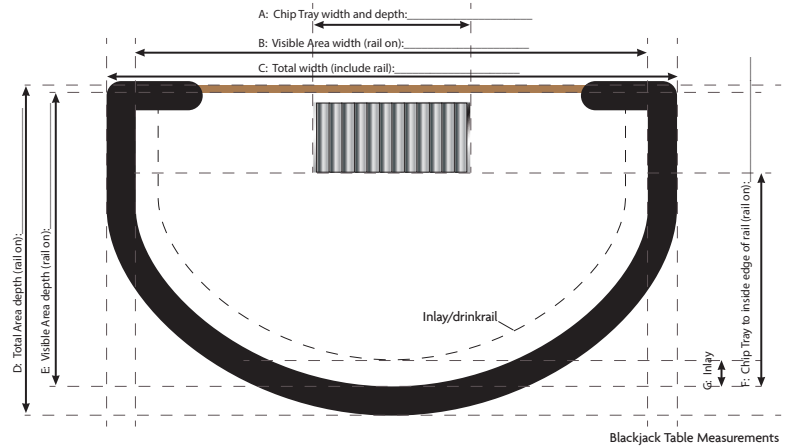

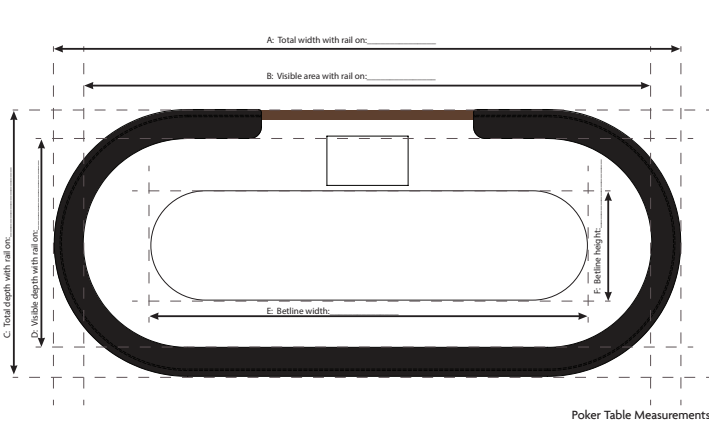

GRAPHIC DESIGN

Our graphic design team has over 25 years of graphic design experience. Our capability of printing at 360x540 DPI also allows for professional photographic images to be printed directly onto any of our layouts. This is a great feature for special events or themed promotional events. Our graphics department can assist any casino or corporation in creating a truly one of a kind custom designed layout as we have done for hundreds of casinos worldwide.

CASINO CHIPS CHIPS

Full color customized gaming chips designed to meet the demands of the professional gaming environment. Our chips are the most durable full color printed gaming chip in the industry. With our products, there are no more stickers to pull off, no hot stamped foil to wear away, nor any inks to wear and fade. Our gaming chips are manufactured using a special printing process unlike any other chip in the industry and are designed to outlast all other traditional gaming chips.

CERAMIC

CLAY

Ceramic Construction:

Our manufacturing methods ensure uniform construction, consistent 10-gram weight, smooth or textured surfaces and a permanent graphic image. This attention to quality assures excellent dealer feel for shuffling, cutting, counting and handling. Using a single material composition eliminates weak points inherent in other manufacturing methods. They will not break apart or wear thin.

Eliminate Counterfeits:

Ceramic chips from 916 Poker Depot eliminate concerns about counterfeits by incorporating edge wording, denominations / designs. The most secure chip in the industry, these products have never been successfully counterfeited.
